Graham Renfrew  
mydentist

Dear Graham,

I'm writing about the Associate Dentist position at your Kensington practice. I've been at Bupa Dental Care Marylebone for the last three years, seeing 25-30 patients a day across NHS and private work, and I'm looking for a role with more scope for cosmetic and restorative dentistry within a well-established practice group.

At Bupa, I generate over £18,000 per month in private revenue from composite bonding, whitening, and veneer cases, and I launched a dedicated cosmetic clinic that produced £48,000 in new revenue in its first six months. I perform 6-8 crown and bridge preparations a week and hold a 98% patient satisfaction rating on Google reviews. I also reduced failed appointments by 22% by introducing same-day reminders and a short-notice waiting list system. Before Bupa, I built a patient list from scratch to 1,800 at a Croydon practice, consistently delivering 102% of my UDA target.

I hold the MJDF from the Royal College of Surgeons and I'm currently completing a Certificate in Dental Implantology at UCL Eastman. Mydentist's combination of NHS access and private services aligns well with my mixed practice experience, and the Kensington location suits the cosmetic work I enjoy most. I'd welcome a visit to the practice and a conversation about the role.

Kind regards,

Sofia Navarro
